

FLOWGENIX

PRECISION IN EVERY FLOW

PRODUCT CATALOGUE

PRODUCT RANGE

Thermal Mass Flowmeter

Media	Air / Gases
Accuracy	$\pm 2\%$
Output signal	4-20 mA
Temperature	Upto 60 °C
Pressure range	Upto 16 bars
Power input	24 V Dc / 230 V Ac

Electromagnetic Flowmeter

Media	Water
Accuracy	$\pm 0.5\%$
Output signal	4-20 mA
Temperature	Upto 50 °C
Pressure range	Upto 10 bars
Power input	24 V Dc / 230 V Ac

Oval Gear Flowmeter

Media	Oil / Liquid
Accuracy	$\pm 0.5\%$
Output signal	4-20 mA
Temperature	Upto 150 °C
Pressure range	Upto 16 bars
Power input	24 V Dc / 230 V Ac

Note : Images are just for reference purpose

PRODUCT RANGE

Turbine Flowmeter

Media	Liquid / Gases
Accuracy	$\pm 1.5\%$
Output signal	4-20 mA
Temperature	Upto 150 °C
Pressure range	Upto 16 bars
Power input	24 V Dc / 230 V Ac

Vortex Flowmeter

Media	Liquid And Gases
Accuracy	$\pm 1\%$ And $\pm 1.5\%$
Output signal	4-20 mA
Temperature	Upto 150 °C
Pressure range	Upto 16 bars
Power input	24 V Dc / 230 V Ac

Ultrasonic Flowmeter

Media	Liquid
Accuracy	$\pm 1\%$
Output signal	4-20 mA
Power input	24 V Dc / 230 V Ac

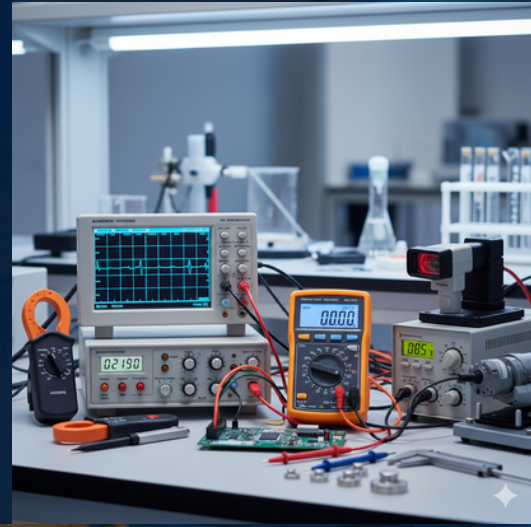

Note : Images are just for reference purpose

OTHER SERVICES

Supply of Testing & Measuring Instruments

We supply:

- Electrical & Electronic Testing Instruments
- Temperature, Pressure & Flow Measuring Devices
- Portable Calibration Instruments
- Process Control & Automation Tools
- Environmental Testing Instruments (Humidity, Dust, Dew Point, Particulate Counter, etc.)
- Multimeters, Clamp Meters, Power Analyzers, and Data Loggers

Calibration Services

ABFlowgenix offers professional calibration services for all types of industrial instruments, ensuring their accuracy and compliance with national and international standards.

Our calibration process is traceable to NABL standards and performed by qualified professionals using advanced reference equipment. Scope of Calibration:

- Flow, Pressure, Temperature, Electrical, and Level Instruments
- On-site and Laboratory Calibration Option
- Detailed Calibration Reports with Traceability Certificates

Skilled Labour & Technical Manpower Supply

ABFlowgenix also provides technical labour and skilled manpower supply services across various industries.

Our manpower solutions are designed to help industries meet short-term project requirements or long-term operational needs efficiently.

ABFlowgenix is a licensed labour supplier, holding a valid Labour License to ensure all workforce deployments comply with statutory and safety regulations.

ABOUT US

ABFlowgenix is a professionally managed organization specializing in flow measurement and industrial automation solutions. We deliver a comprehensive range of high-precision flowmeters and process instruments engineered for accuracy, reliability, and long-term performance across multiple industrial sectors.

Recognized as an MSME-registered enterprise, ABflowgenix takes pride in contributing to India's growing industrial ecosystem by offering quality-driven, innovative, and sustainable solutions that meet international standards.

With a focus on technological excellence and customer satisfaction, we cater to industries such as water management, oil & gas, manufacturing, pharmaceuticals, and process automation. Every product we deliver is backed by rigorous testing, advanced engineering, and a commitment to continuous improvement.

At ABflowgenix, our mission is to empower industries with smart, efficient, and dependable flow monitoring systems that enhance productivity, ensure operational safety, and drive long-term value.

WHY CHOOSE US?

◆ Precision & Accuracy

We deliver flowmeters with exceptional accuracy ($\pm 2\%$), built for critical industrial applications.

◆ Comprehensive Solutions

A complete range of flowmeters for gases, air, water, steam, and other process media.

◆ Indian Manufacturing Excellence

Proudly engineered and manufactured in India, built to meet global quality standards.

◆ Customization & Flexibility

Tailored solutions to suit your specific industrial requirements.

◆ Reliable Support

Technical expertise and dedicated service support at every stage – from selection to commissioning.

◆ Robust Build Quality

Designed for durability and high performance in the toughest environments.

◆ Fast Delivery

Prompt manufacturing and supply to ensure minimum downtime for your operations.

◆ Customer-Centric Approach

Your success is our priority – transparency, integrity, and commitment in every interaction.
